# Youth a methodologies workshop

# Carto- graphies

March 11-14, 2024

Co-hosted by  
the *International Institute for Asian Studies* (IIAS) and  
the *French Institute, Pondicherry* (IFP)

The workshop brings together urban practitioners and scholars working on geographies of young people's aspirations and anxieties, as they are articulated in different spaces of social interaction and expression, be they urban, rural, coastal or digital. Over the three days, participants will share their experience of engagement with youth in different socio-ecological and political contexts, whilst focusing on the variety of experiential techniques used with a special emphasis on cartography and embodied methodologies.
